## Check us out!

## Monthly cost

This is the average monthly cost of using the whiblo application under the selected package (Minimum, Standard or Premium).

## 1-year/2-year subscription

This is a one-time payment incurred for one or two years of whiblo usage. The two-year option is subject to a 15% discount.

## Installation fee

This is a one-time fee. As part of the installation process, our team will configure the whiblo application according to your requirements.

## Number of users

This is the number of users (coordinators) with individual accounts in the whiblo application. These are people who are responsible for handling whistleblower reports in the application. The number of coordinators depends on the selected package (Minimum - 1, Standard - 3, Premium - 5). It is possible to increase the number of coordinators beyond the available limit for an additional fee - according to the Price List.

## Database size

The amount of space available for the storage of data from all reports registered in whiblo (most importantly attachments). If the available limit is exceeded, reports can still be added and handled in whiblo, but no more attachments can be added. In this case, the customer can increase the size of the database for an additional fee - in accordance with the Price List.

## Language versions

The whiblo application is available in Polish and English.

## Additional language version

In the Premium package, there is a possibility to configure the whiblo application in an additional language version. The fee for making the application available in a language version other than Polish or English is individually negotiated.

## Statistical reports

The whiblo application enables you to generate reports. The Standard package offers 3 statistical reports on whistleblower submissions. In the Premium package, 5 reports are available, as well as the possibility for our team to prepare a report according to the customer's individual needs.

## User dashboard

This is a place in the whiblo application which contains current statistics on whistleblower reports. Dashboard is available for users in Standard and Premium packages.

## Logo customization

Each customer has the possibility to personalize the whiblo service by adding their own logo in the application.

## Color customization

Each customer (Standard and Premium packages), in addition to being able to add their own logo in the whiblo application, also has the option of defining the app's theme colour (e.g. according to their own corporate identity system). The theme colour is agreed with the customer during the configuration process.

## User support - we offer 2 support models

- Standard: e-mail support (response within 5 working days).
- Premium: e-mail support and MS Teams (response within 2 working days).

## Training - training materials for whiblo users

- User manual: manual provided in PDF format.
- MS Teams: two-hour training for whiblo users using MS Teams.

## Retention

This is the period of time during which the whiblo application stores complete information about all whistleblower reports (report contents and attachments). After this period, only statistical information is available in the application and all other data are deleted.

## Database expansion

Increasing the amount of space in the database beyond the available limit for an additional fee - according to the Price List.

## Increasing the number of users

Increase the number of users (coordinators) with individual accounts in whiblo beyond the available limit within the selected package for an additional fee - according to the Price List.
